TOBACCO BRANCH MEMORANDUM NO. 8

To: Washington and Field Officials
From: Chas. E. Gage, Chief, Tobacco Branch
Subject: Transfer of Carol B. Hill to Washington Office

The new position of Assistant Chief, Inspection Division, is being created. Carol B. Hill, Assistant Supervisor in the fire-cured and dark air-cured district of Kentucky and Tennessee has been selected for assignment to the new position.

It has been apparent for some time that the duties devolving upon Mr. Dunn as Chief of the Inspection Division were becoming too heavy for one man to carry, and also that there was urgent need for an understudy to him.

Mr. Hill was employed under license on July 1, 1932, to supervise inspection in Types 24 and 36. He has served in the capacity of Assistant Supervisor, first under E. D. McDowell, and later under B. H. Mizell, since that date. He is well qualified in all fire-cured and dark air-cured types of Kentucky and Tennessee. Since 1937 Carol has performed inspection service annually in the flue-cured district where, as in dark tobacco, he has shown great proficiency.

Carol has demonstrated his capacity and superior qualifications for supervisory work and it is felt that his selection will be welcomed throughout the field service. It is expected that he will take up his new duties about May 1.
